Election/Restrictions

1. Upon reconsideration, claims 33-46, 51-58 and 62-69 of the elected species (i.e., gravel packing) are further restricted as follows:
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 33-36 and 51-57, drawn to a service tool or a system for use in a well, classified in class 166, subclass 66.
 - II. Claims 37-46, 58 and 62-69, drawn to either a method for monitoring a well operation or a system for monitoring a well operation, classified in class 166, subclass 250.01.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice another and materially different process such as running or operating a valve, testing formation fluids.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3672

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
